PHYLLIS

Although unlaid, this first of steady dates, A year older than I, merits inclusion for helping to develop my taste for Audacious, Fiesty Females we met in Chemistry class, sharing a penchant for playfulness therein. A dark-haired beauty of peasant stock, she was slightly hipster, promising, if only I had known, a thick luxuriant growth of public hair. She was there to appreciate my first public pun, At a chemistry lecture on the nature of colors, "Does that mean they are pigments of the imagination?" I once had the local Radio Station play "Are you long gone tonight" for her, we were not intellectual compatible, and later drifted apart.

Carolyn Lugerling - The second and last of the unlaid - after her time the requirement for greatness became willingness to make love with me. However, Carolyn was a voluptuous blonde with a dazzling smile - to me she had the charm of a Marilyn Monroe, and for some time I thought myself lucky to date her steadily. She was a German Catholic, and though essentially sensual, would never allow so much as a bare breast to be felt. Perhaps this was just as well - if I'd ever had her I probably would have married her and had a litter of Ruffrats, until I got laid elsewhere, Carolyn remained true to me, and never seemed to mind my old cans and limited budget. She is one I'd really like to see again, and, if possible, Fuck. She was intelligent enough - went to college - would probably have made a good companion if not for her tabcos. When I finally couldn't take the frustration anymore, and found, briefly, #3, which was discovered by C.'s sisters Carolyn got angry and banished me from her presence. Once she may have wanted to make up, but the timing was wrong. ~~AM I BACK...~~

YOLANDA - This young lady Achieved brief but sudden greatness by being my very first Fuck. She was a cute and sexy sun-kissed blonde, and from the very first exuded a sensuality that was much less inhibited than Carolyn's. She was little, if any, more experienced than I, but our clumsy passionate groping in the back seat of my mother's '51 Chevy soon lead to the real thing, I could hardly believe my luck when I penetrated her soft downy pubes under her tight blue jeans. My fingers encountered the ultimate frontier of her tight moist pussy. This new sensation inspired in me a frenzy, an obsession, to enter her with my throbbing prick. I pulled her jeans to her knees AS I frantically used my own. Somehow I managed to thrust my virgin cock between her pants - even her legs and between her pussies. This was more than my teenage libido could stand. I promptly ~~and~~ killed her tight hole with 17 years worth of come. At this point Yolanda panicked with fear of pregnancy and ran inside her house. I never saw her again. But I had Fucked.

MARY ANN - She was a homely country girl from Lone Jack and we spent many evening hours in the back of my cousin Graebert's van in heavy petting sessions. It took a while before I managed to slip in, but when I finally did, she liked it and became an enthusiastic lover. Her only real problem was inadequate feminine hygiene. As a result my van retained her pussy odor perpetually, invoking the comments of friends, but I didn't know at the time that it was unusual. Mary Ann was a feisty, spirited girl, and eventually got kicked out of the CMSC at Wartonsburg for throwing panties out the window during a pantyraid. We both went our separate ways after college. We weren't in love, but we did have fun.
