Wednesday MAY 14!

I would have preferred a nice dragon, but the government said it had to be numbers.

Great Women I HAVE KNOWN

Number: Michelle, aka kitten, 4'11" of the most perfectly shaped body I have ever seen, from the Bronx, A fiery, often outrageous, flinty blonde. She says she grew up on the streets of NYC because they were safer than home. No doubt she's tougher than she looks, and she's bright and fun. She doesn't want to be eaten, which is a bummer, but she might learn her assets, she's many women with child hood. She takes care of too expensive though.
