

ON this MEMORIAL DAY weekend, ON 5-26-90, it IS ONLY fitting that WE HONOR CAB 526, THE CAPTAIN'S FIRST REGULAR CAB, A Dodge St. Regis. It had the longest trip: L.A. It was the fastest. It had class AND it served him well. MAY IT REST IN PEACE.

But it's ONLY A MACHINE!

ONLY A MACHINE? you say that as if machines were less than human.

WE ourselves are but complex organic machines. When any mechanism reaches a high level of complexity especially when made to interact with its intelligent makers, UNPREDICABLE FACTORS are introduced, often resulting in INTERACTIONS INDISTINGUISHABLE between those people.

Is that A SUNRISE?

5-28

NO, it's either A MONSET OR A TUESRISE.

Doesn't everyone know it's NOT the SUN settin' BUT the HORIZON risin'?

You CAN take time off, But you CAN'T take off the MILES.

I've FINALLY thought OF A NAME for the new Decade! Let's call it the See-Through 90's!

I'll bet I CAN get A KNIGHT OFF!

Well, I'll just have to fiddle with your Rewind button FOR A while.

See-Through 90's!
