No matter where he may roam E-O he'll come back here to shake 'is spear

Not to be a Bee, you see, for me to be me

But where's the wherefore in Juliet?

I'll find the "et" in Juliet

That'll put the wet in Juliet!

I'm the "Y" in JULY

It's Independence Eve - The night when revolutionaries decided that tomorrow they would sign for freedom and fight to get it. Their decision meant that no symbol, not even the crown of England, was more important than the natural rights of human beings. They fought not to set up new icons nor ideologies, but for the right to destroy any icon, ignore any ideology, and banish any government that threatened their freedom.

JULY 2

IDES NIGHT

AND that includes the freedom to burn flags say "Mother Fucker" and tote an UZI.

Freedom to do and say only what pisses no one off is not freedom at all
