IN VIEW OF THE Technological Progress man has made, one would think that similar

SEPT
107760

GAINS would have been made in the social and psychological fields; that after thousands of years of so-called civilization that modern man that have learned that violence, intolerance and greed ARE counter-productive and should be eliminated from our behavior pattern.

But we have computers, VCR, microwaves, space travel, lasers, nuclear reactors, CD's, fast food, fiber optics, Evolution, HARLEY, SOLAR power, water beds, Birth control, Condo's, peace, love and sharing must be next on the list +
